

# SUSTAINABILITY

## FOR A BETTER FUTURE

Cigniti recognizes its role and responsibility in environmental protection and resolving environment related issues through long-term, sustainable actions. The four key focus areas of Sustainability at Cigniti are:

### Sustainability at Cigniti

- 1 Reporting Carbon Footprint
- 2 Bringing Sustainability culture in the organization
- 3 Sustainability in Ecosystem
- 4 Green Initiatives as part of CSR

Under our green mission initiative **Cignitree**, Cignitians planted saplings in Hyderabad to accelerate towards a carbon-zero future. With each healthy sapling planted, we intend to create a repository for a rich, ecologically diverse planet. Further, we aim to bring a sustainability culture into the organization by participating in green initiatives as part of our CSR program.
