The Buy-back of Equity Shares will result in a reduction in number of shares accompanied by a likely increase in EPS and return on capital employed. The Company believes that the Buy-back will create long term value for continuing shareholders. The Buy-back is not likely to cause any material impact on the profitability/earnings of the Company except a reduction in the investment income, which the Company could have otherwise earned on the amount distributed towards the Buy-back. The Buy-back will not in any manner impair the ability of the Company to pursue growth opportunities or meet its cash requirements for business operations and for continued capital investment, as and when required.

**Part B - Disclosures in Accordance with Schedule IV of the Buyback Regulations**

**1. DATE OF BOARD MEETING**

The Board of Directors of the Company, has, at its meeting held on May 18, 2022, approved the Buy-back. Since the Maximum Buyback Size is not more than 10% of the total paid-up capital and free reserves (including securities premium account) of the Company based on both standalone and consolidated audited financial statements of the Company as on March 31, 2022, the approval of shareholders of the Company is not required in terms of the proviso to the Section 68(2)(b) of the Act read with the proviso to Regulation 5(i)(b) of the Buyback Regulations, approval from the shareholders of the Company is not required.

**2. MINIMUM AND MAXIMUM NUMBER OF EQUITY SHARES PROPOSED TO BE BOUGHT BACK, SOURCES OF FUNDS AND COST OF FINANCING THE BUYBACK**

2.1. Based on the Minimum Buy-back Size and the Maximum Buy-back Price, the Company will purchase an indicative minimum of 3,80,000 (Three Lakhs Eighty Thousand) Equity Shares ("Buy-back Shares"), and based on Maximum Buy-back Size and the Maximum Buy-back Price, the indicative maximum number of Equity Shares bought back would be 7,60,000 (Seven Lakhs Sixty Thousand) Equity Shares ("Maximum Buyback Shares"). If the Equity Shares are bought back at a price below the Maximum Buy-back Price, the actual number of Equity Shares bought back could exceed the indicative Maximum Buy-back Shares or Minimum Buy-back Shares but will always be subject to the Maximum Buy-back Size. Further, the number of Equity Shares bought back will not exceed 25% of the total paid-up equity capital of the Company as on March 31, 2022.

2.2. The Company proposes to implement the Buy-back out of its free reserves. The amount required by the Company for the Buy-back (including the cost of financing the Buy-back and the Transaction Costs) will be through utilization of cash, sale of liquid investments held and internal accruals of the Company.

2.3. As mentioned in Paragraph 2.1 above, in continuation of the Company's efforts to effectively utilize its resources, it is proposed to Buy-back up to 9.94% and 8.11% of the paid-up share capital and free reserves based on the audited financial statements of the Company as at March 31, 2022 on standalone and consolidated basis respectively, from the open market through the Stock Exchanges. The Buy-back of Equity Shares will result in a reduction in number of shares accompanied by a likely increase in EPS and return on capital employed. The Company believes that the Buy-back will create long term value for continuing shareholders. The Buy-back is not likely to cause any material impact on the profitability/earnings of the Company except a reduction in the investment income, which the Company could have otherwise earned on the amount distributed towards the Buy-back. The Buy-back will not in any manner impair the ability of the Company to pursue growth opportunities or meet its cash requirements for business operations and for continued capital investment, as and when required.

Further, the number of Equity Shares bought back will not exceed 25% of the total paid-up equity capital of the Company as on March 31, 2022.

2.2. The Company proposes to implement the Buy-back out of its free reserves. The amount required by the Company for the Buy-back (including the cost of financing the Buy-back and the Transaction Costs) will be through utilization of cash, sale of liquid investments held and internal accruals of the Company.

2.3. As mentioned in Paragraph 2.1 above, in continuation of the Company's efforts to effectively utilize its resources, it is proposed to Buy-back up to 9.94% and 8.11% of the paid-up share capital and free reserves based on the audited financial statements of the Company as at March 31, 2022 on standalone and consolidated basis respectively, from the open market through the Stock Exchanges. The Buy-back of Equity Shares will result in a reduction in number of shares accompanied by a likely increase in EPS and return on capital employed. The Company believes that the Buy-back will create long term value for continuing shareholders. The Buy-back is not likely to cause any material impact on the profitability/earnings of the Company except a reduction in the investment income, which the Company could have otherwise earned on the amount distributed towards the Buy-back. The Buy-back will not in any manner impair the ability of the Company to pursue growth opportunities or meet its cash requirements for business operations and for continued capital investment, as and when required.
